

# RITEWAY CONSULTING SERVICES, LLC

At the heart of our company lies an unwavering commitment to excellence. Every project we undertake benefits from the pride, expertise, dedication, and professionalism of seasoned professionals with proven success in their fields. We prioritize safety, value confidentiality, and uphold integrity in every interaction—whether it's working on a project, providing services to your company, or fostering long-term partnerships. Our focus is on delivering exceptional results, every step of the way.

Projects completed include digester rehabilitation, construction of a new regional wastewater reclamation facility and water quality lab, agency wide air release and vacuum (ARV) relief valves relocation and replacement, waste gas flare system improvements, earthwork and infiltration restoration, digester rehabilitation, and emergency work such as broken pipes, building structure repair, and street work.

Other types of projects completed include state and federal military projects, airports, building and remodeling police and fire stations, commercial and industrial projects, as well as local government, retail stores, and schools.

**Riteway Consulting Services, LLC is available 24 hours a day, 7 days a week, 365 days a year for Emergency Projects.**

## CAPABILITY STATEMENT

### Consulting • Construction Management • Professional Services

#### Core Capabilities

##### Quality Control & Inspection

Quality control and inspection are essential in the construction process to mitigate errors and misunderstandings. Services include daily progress documentation, ensuring compliance with plans and specifications, providing updates to project management, conducting safety evaluations, and overseeing construction quality management.

##### Project Management

With 45+ years of project management experience, Riteway ensures your construction project remains on schedule, within budget, and adheres to all government regulations and specifications.

##### Design

Riteway excels in creating infrastructure solutions tailored to your project's unique requirements, with a fresh perspective to technical challenges and a blend of critical thinking, analytical insight, time and people management, and exceptional communication skills.

##### Administrative Assistance

We provide meticulous and professional handling of all project documentation and communication, including tracking and reporting metrics, data input, scheduling, and meeting arrangements.

##### Aerial and Ground Video and Photography

State-of-the-art video and photography services using drones and cameras to capture your project from every angle.

##### Draw Inspection

Our draw inspection services provide expert evaluations to ensure accurate and timely disbursement of funds during construction phases.
